Take any of your purchased or downloaded MP4's and convert them into MP3 file format so you can utilize MP3's instead of Apple iTunes dedicated MP4's. Many people have emailed us asking for this program to put on our iDownloads page. We have now answered to our readers many email's and provided a downloadable copy of a excellent MP4 to MP3 Converter for all of our users. You can now take any downloaded MP4 that you have in your iTunes library and convert that MP4 file to an MP3. Take your purchased and/or protected .M4A or MP4 iTunes music file and convert into a usable MP3 that you can put on or transfer to any computer and/or MP3 player. The MP3 file can then be used on any MP3 player or shared with multiple computers including Macintosh. The number of sharing is unlimited with the converted MP3 file from MP4. MP4's have limits set by Apple iTunes with sharing permissions and the simple ability to play on other devices besides an iPod or from your installed copy of iTunes. Enjoy the freedom with all of your purchased music with a MP4 to MP3 converter program. You purchased the music so take ownership of it!

The MP4 to MP3 Converter allows you to also convert many other popular audio file formats to MP3 on your Macintosh. You will enable yourself to convert MPEG1, MPEG2, MPEG4, WMV, AVI, MP4, 3GPP, 3G2, MOV, RM, RMVB, OGG, DV, H.264 files to the audio files such as MP3, WAV, AC3, WMA, M4A, OGG, AAC etc… etc… simply and swiftly on your Macintosh!
